EDUCATION

SMAN 13, Bekasi
2009 - 2012

PROFESSIONAL SUMMARY

Detail-oriented Front-End Developer with a strong focus on building user-centric web applications. Proficient in modern JavaScript frameworks, particularly React.js and Next.js, with a deep understanding of state management and API integration. Passionate about translating complex UI/UX designs into functional, clean code while adhering to best practices.

WORK EXPERIENCE

Front-End Developer

Jul 2022 - Jan 2026

PT Jaya Digital Properti

Created layouts and UIs using React.js, Next.js, TypeScript, Styled Components, Ant Design, and Tailwind CSS.

Integrated RESTful APIs via Axios for robust front-end and back-end communication.

Applied clean architecture principles for scalable and maintainable codebases.

Implemented unit testing to enhance reliability and prevent regressions.

Enforced code linting and standards for consistency and quality.

Utilized Git branching strategies for efficient collaboration.

Developed dynamic form validation using custom logic and libraries.

Implemented code splitting and lazy loading to optimize initial bundle size.

Optimized React rendering via memoization (useMemo, useCallback, React.memo).

Minimized re-renders through effective state management and component structuring.

Improved page load performance and Core Web Vitals based on audits.

WORK EXPERIENCE (CONT.)

Front-End Developer

Aug 2021 - Jun 2022

Pinduit Indonesia

Built internal dashboards using React.js and Material UI

Developed real-time file upload progress features using Firebase

Collaborated with UX designers to build responsive, accessible interfaces.

Optimized application performance and resolved memory leaks.

Front-End Developer

Oct 2020 - Aug 2021

Triple One Global Indonesia (Lakugan)

Developed landing pages and promotional sites using HTML, CSS, and React JS.

Integrated RESTful APIs using Axios.

Integrated payment gateway functionality for seamless transactions.

Built supplier, reseller, and internal dashboards from scratch.

Developed comprehensive buyer-facing features.

Designed UI for internal dashboards based on operational needs.

Contributed to API contract definitions between Back-End and Front-End.

Implemented real-time order status tracking.

Web Developer

Jun 2020 - Sep 2020

Panggilan

Developed landing pages and promotional sites using HTML, CSS, and React JS.

Participated in agile workflows, daily stand-ups, and sprint planning.

Junior Web Developer

Jul 2019 - May 2020

PT Akomedia Asia

Assisted in client website development, UI translation, and bug fixing.

Intern / Junior Developer

Jan 2019 - Jun 2019

PT Duta Digital Nusantara

Supported senior developers in maintaining legacy codebases.

Gained foundational knowledge in web architecture and version control.
