PROFESSIONAL SUMMARY

Front End Developer with 6+ years of experience (React.js since 2020) building responsive, scalable web applications using React.js, Next.js, and TypeScript. Skilled in state management, RESTful API integration, unit testing, and performance optimization (Core Web Vitals, code splitting, memoization). Experienced with Ant Design and Tailwind CSS to deliver high-quality, maintainable UI/UX.

CORE SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks/Libraries: React.js, Next.js, Redux, Context API, React Hooks (useMemo, useCallback, React.memo)

Styling/UI: Tailwind CSS, Styled Components, Emotion.js, Ant Design, Material UI, Reactstrap

Tooling: Vite.js, Axios, Git, Git Branching Strategies, Code Linting, Webpack (add if used)

Testing & Quality: Unit Testing, Jest (confirm/add), React Testing Library (confirm/add), Code Review

Performance: Core Web Vitals (LCP, CLS, FID), Code Splitting, Lazy Loading, Memoization, Bundle Optimization

Integration: RESTful APIs, Firebase (Cloud Storage, Realtime Database), Payment Gateway Integration, Ajax

Other: Clean Architecture, Form Validation, Responsive Design, Cross-Browser Compatibility

EXPERIENCE

Front End Developer — PT. Jaya Digital Properti (FitHub)

Jul 2022 – Jan 2026

- Built site layouts and user interfaces using React.js (Vite.js), Next.js, TypeScript, Styled Components, Ant Design, and Tailwind CSS
- Integrated RESTful APIs using Axios for seamless front-end/back-end communication
- Applied clean architecture principles to build scalable, maintainable, and testable codebases
- Implemented unit testing to ensure application reliability and prevent regressions
- Enforced code linting and standardization to maintain code consistency and quality
- Applied Git branching strategies to support efficient collaboration and deployment workflows
- Developed complex, dynamic form validation using custom logic and validation libraries
- Implemented code splitting and lazy loading to reduce initial bundle size
- Optimized React rendering using memoization techniques (useMemo, useCallback, React.memo)
- Minimized unnecessary re-renders through proper state management and component structuring
- Improved page load performance and Core Web Vitals (LCP, CLS, FID) through performance audits and best practices

Front End Developer — Pinduit Indonesia (Tataskola)

Aug 2021 – Jun 2022

- Built site layout and UI using React.js and Material UI
- Integrated RESTful APIs using Axios for front-end/back-end communication
- Developed upload progress bar notifications using Firebase Cloud Storage

Front End Developer — Triple One Global Indonesia

Oct 2020 – Aug 2021

- Built site layout and UI using React.js, Styled Components, and Reactstrap
- Integrated RESTful APIs using Axios for front-end/back-end communication
- Integrated payment gateways for secure, efficient transactions
- Built an internal dashboard for supplier and reseller services

Front End Developer — Panggilin

Jun 2020 – Sep 2020

- Built site layout and UI using React.js and Styled Components
- Integrated RESTful APIs using Axios for front-end/back-end communication
- Built a real-time chat feature using Firebase Realtime Database

Front End Developer — PT. Ako Media Asia (SALT)

Jul 2019 – May 2020

- Built site layout and UI using HTML, CSS, and jQuery
- Integrated RESTful APIs using Ajax for front-end/back-end communication

Front End Developer — PT. Duta Digital Nusantara (VHI Web)

Jan 2019 – Jun 2019

- Wrote clean HTML and CSS, integrating design and JavaScript/Laravel programming capabilities

SELECTED PORTFOLIO PROJECTS

- **AreniX (arenix.id, tenant.arenix.id):** Designed and built a full-stack sports venue management SaaS from the ground up, including frontend, backend, database architecture, RESTful APIs, and deployment. Developed tenant dashboards, online booking, venue-owned booking websites, cashier/POS, finance management, memberships, and payment integrations. Stack: Next.js, React.js, TypeScript, Go, Gin, GORM, PostgreSQL, Tailwind CSS, Docker, Midtrans, Cloudflare R2.
- **FitHub Website (fithub.id):** Optimized performance, built responsive Location Page, developed BMI calculator, revamped UI/UX. Stack: Next.js, Emotion.js, React Formik, Redux, Axios, TypeScript.
- **FitHub Dashboard:** Migrated class components to function components with TypeScript/Redux; built a Code Generator Page for reusable templates. Stack: React.js, Vite.js, Styled Components, Ant Design, TypeScript, Redux, Axios.
- **Tataskola Dashboard:** Built new dashboard features with Material UI; implemented real-time file upload progress via Firebase. Stack: React.js, Material UI, Axios, Redux, Firebase.
- **Lakugan:** End-to-end dashboards and buyer-facing site incl. payment flow, order tracking, and BE/FE API contract design. Stack: React.js, Styled Components, Context API, Axios, Ant Design.
- **Nusamed (nusamed.com):** Built company website from scratch with responsive, mobile-optimized UI slicing. Stack: React.js, Styled Components.
- **Panggilin Web Partner:** UI slicing, real-time chat via Firebase, RESTful API integration, form validation. Stack: React.js, Styled Components, Axios, Redux, Firebase.

EDUCATION

SMAN 13, Bekasi — 2009–2012

MTS Nurul Ikhlas, Bekasi — 2006–2009

SDN Bojong Rawalumbu XI, Bekasi — 2000–2006
